

wood on land along the said way since the 1930's.

SEVENTH: That the use of the way by your Complainant Jacobs has been continuous and uninterrupted. Your Complainant Jacobs has used the way several times during that time of the year when he cuts wood.

EIGHTH: That the Respondents have asserted that your Complainants have no right to enter said way. The Respondent, Coleman J. Lidie, III, has charged your Complainant Rice with the crime of trespassing for using the way, which charge was nolle prosequi in June of 1979. The Respondents have put chains, large stones, rocks, glass, and barrels into the way, obstructing the way so that your Complainants' use has been prevented for the purposes described herein without the removal of the various obstructions.

NINTH: That your Complainants have no adequate remedy at law.

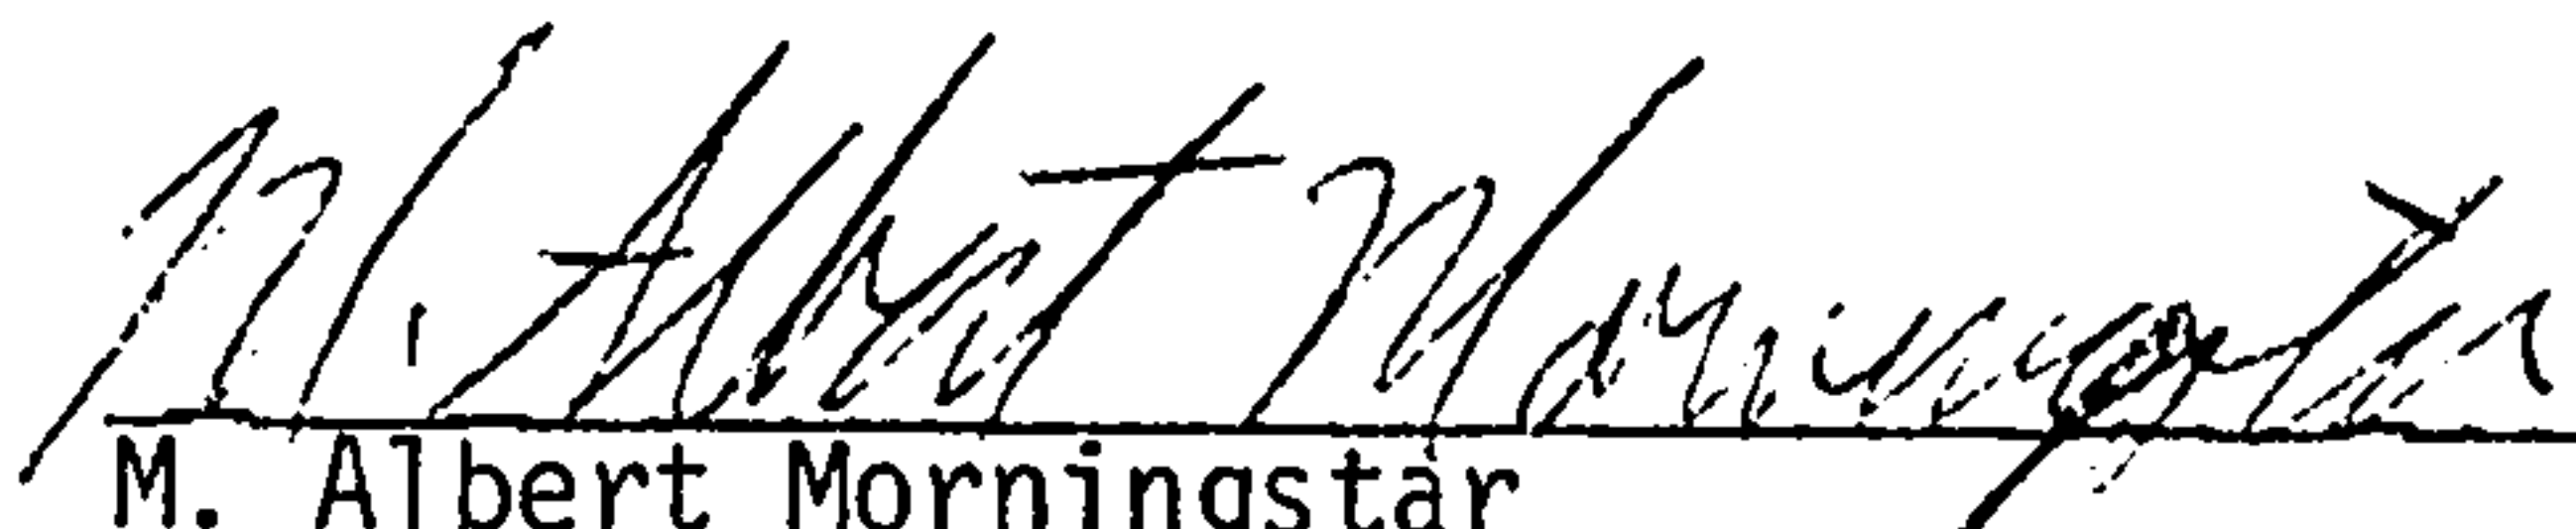

WHEREFORE, your Complainants pray:

A. That they be adjudged the owners of an easement of a way over the right of way extending across the northeast corner of the Respondents' property as described in Liber 1103, at folio 615, one of the Land Records of Frederick County, Maryland.

B. That the Respondents be ordered to remove all of the obstructions, including glass, barrels, rocks, chains, and stones from the way.

C. That the Respondents be permanently enjoined from obstructing said right of way.

D. And for such other and further relief as the nature of the case may deem necessary.

M. Albert Morningstar
Attorney for Complainants
